

Emergency Drought Resolution

Level 2 Alert

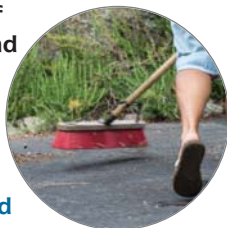

36%
WATER REDUCTION
MANDATED
IMMEDIATELY
BY STATE

Adopted
April 14, 2015

LEVEL 2 ALERT

Conservation *has never been more* **Necessary**

It's no secret. California's water supply is constrained by drought and the increasing cost of imported water in the region. While prudently planning for the future needs of the community, **the prevention of water waste is an economically and environmentally feasible way** to protect and conserve our District's water supplies.

The **purpose of this program** is to:

- **Comply with the State-mandated Level 2 water conservation measures.**
- **Reduce water consumption** within the Serrano Water District through conservation.
- **Enable effective water supply planning**, assure reasonable and beneficial use of water, prevent waste of water, and maximize our community's efficient use of water.

Recommended Watering Schedule to comply with the **TWO DAYS PER WEEK WATERING** that encourages deep watering with no run-off.

SELECTED DAYS OF THE WEEK ARE FOR ILLUSTRATIVE PURPOSES ONLY.

Sun.	Mon.	Tues.	Wed. Irrigate	Thurs.	Fri. Mow	Sat. Irrigate
Program			A	B	C	
Station 1	Lawn	3 min	3 min	3 min	3 min	2 days/week
Station 2	Shrubs	3 min	3 min	3 min	3 min	2 days/week
Station 3	Trees	5 min	5 min	5 min	5 min	1 day/week
Station 4	Drip	No limit and is dependent on drip rate.				
Station 5	Slopes	One minute intervals. Consult the owner's manual to achieve approximately 10 minutes of total run time using the interval run option on the timer. No run-off permitted				

Keep an eye on your landscaping and add one minute to whichever station supplies any stressed area.

For assistance in programming your timer, please contact Steven Sweeney, Water Conservation Specialist, at (714) 538-0079

SERRANO WATER DISTRICT

Where does our Water come from?

The **Serrano Water District** receives its water supply from local surface water, which is stored in Irvine Lake, and groundwater from three wells located within the City of Villa Park.

To carefully prepare for the needs of our residents, the

Serrano Water

District also purchases water from the Metropolitan Water District of Southern California, through

our local water

wholesaler the Municipal Water District of Orange County.
